Phone: 850-473-8704

**Custom Control Solutions, Inc.** finished the design and fabrication of a DCS building for the Georgia Pacific Palatka site. The building will house all of the DCS equipment required for the Digester DCS Migration Project.

Building size: 16 Ft. Wide x 30 Ft. Long with 11'-6" interior ceiling height.

The project contained the following equipment:

- Aluminum cable tray
- Wind loads up to 120 MPH
- Skid mounted Westvaco air filtration/pressurization/vapor scrubber unit.
- Geothermal Package Unit HVAC
- Siemens fire suppression system
- Corrosion monitoring system

DCS Control Room
